Detailed Research Experience

- 2018-** **Co-P.I., Pocantico River Watershed Project, Pace University**
Researching the perceptions of environmental challenges and assets in the Pocantico River Watershed. A collaboration with the Bronx River Alliance and the Pocantico River Watershed Alliance. We are utilizing surveys and interview-based methods to build a database and public website.
- 2017-** **Co-P.I., Municipal Survey Project, Pace University**
Studying the challenges of governing environmental resources across a diverse watershed. We are utilizing interview-based methods to ask different actors about their perceptions of regional environmental issues, priorities, and challenges.
- 2012-2016** **Co-P.I., Pittsburgh urban water governance, Chatham University**
Researched Pittsburgh's water governance with a focus on water quality, stormwater, green infrastructure, and policy. Working with collaborators and students, we have developed projects that explore public perceptions of green stormwater infrastructure, urban nitrogen cycles, and flooding hazards. These projects employ mixed methods with a focus on urban sustainability.
- 2013-2015** **Co-P.I., Climate change and low impact farming, Chatham University**
Worked with Food Studies & Sustainability students to research the perceptions and adaptation strategies of low impact farmers and gardeners in western PA. We utilized ethnographic methodologies and semi-structured interviews.
- 2010-2012** **Co-P.I., A political ecology of hydraulic fracking, Chatham University**
Worked with Dr. Laura Stroup (St. Michael's College) to research the social and ecological impacts of natural gas drilling in Northeastern Pennsylvania.
- 2007-2010** **P.I., Impacts of coastal development (Dissertation), USC**
Researched the social and ecological impacts of coastal development in Bluffton, South Carolina. Research conducted for my dissertation. Collected and analyzed data, including interviews, secondary documents, land use, and literature.
- 2007** **Assistant, GPS pilot program, USDA - Forest Service, Columbia, SC**
Examined the feasibility of large-scale, differentially-corrected GPS surveys for the monitoring of government resources/inventory in national forests.
- 2006** **Research Assistant, Women and banking, USC**
Worked for Dr. Melanie Feakins researching the experiences of women who work in the banking industry in Charlotte, N.C. Collected and analyzed data, including interviews, secondary documents, and literature.
- 2005** **Associate Researcher, Coastal policy study, USC**
Worked for Dr. Braxton Davis researching the relationship between science and management in coastal South Carolina. Collected and analyzed interviews and policy documents.
- 2004-2005** **P.I., Latino immigration project (Thesis), USC**
Researched regional impacts of Latino immigration in North and South Carolina. Research conducted for my thesis. Collected and analyzed data, including interviews, secondary documents, and literature. Traveled to Veracruz, Mexico to conduct interviews with sending communities.
